WHAT IS ETH BERLIN ?

///

Please welcome ETHBerlin's official third edition:

ETHBerlin³ - ETHBerlin, to the power of 3.

ETHBerlin is known as the hackathon extravaganza, a cultural festival, an educational event, a platform for hacktivism, and a community initiative to push the decentralized ecosystem forward.

ETHBerlin³ is the third edition, and we've come a long way since we hosted our first hackathon in 2018. With ETHBerlin³, we aim to go back to the roots and remind our community what it's all about:

We want to invite you to Berlin to hack the system, now more than ever.

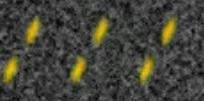

VALUES

Before looking at our sponsoring options, we highly encourage you to read [this year's hacker manifesto](#) and make sure you are aligned with our vision and values.

ETHBerlin's northstar values are - and always have been:

- Opt for open source, and teach the risks involved with rent-seeking proprietary software.
- Support and focus on the builders [*], everything else is secondary.
- Aim for distribution of power and decentralization.

[*] With the term "builders" we include all people that make up an amazing hacking team: The coders, strategists, creatives, visionaries and many more.

HACKATHON

- Three days of hacker extravaganza and collaboration.
- All blockchains are beautiful: we welcome all ecosystems to attend.
- At our last event in 2019, we checked in 1k people. Again, this year we expect approx. 700 hackers; plus mentors, judges, sponsors, volunteers, etc.
- Cultural, educational and creative experiences: Art, crypto, puzzles, hackers, cinema.
- Inclusive collaboration: For us, sponsorships come with responsibility, e.g., providing mentorship on-site, as well as with freedom to help us shape the event by creating your own experiences in collaboration with us.

WITHOUT FURTHER ADO, LET'S HAVE A
LOOK AT THE SPONSORSHIP OPTIONS!

FIREPRINT

///

The event is hosted by a registered German non-profit organization and all sponsorships can be either tax-free donations (with receipt) or service agreements (19% VAT applies).

- Accepted currencies: fiat (SEPA/EUR), p2p (fiatcoins/DAI)
- Sponsor bounties are only allowed if they are included in your sponsor tier. All bounties need to be provided by the sponsor and are not included in the sponsor tier price.
- Sponsorship tickets are meant for representative purposes, i.e., booth shifts, community engagement, etc.
- Judge and mentor tickets come with a responsibility to show up and support hackers!
- Not enough tickets for your team? Additional team members can sign up as hackers through the hacker application process, as judges (subject to qualification), or volunteers.
